

**HELLENIC PUMP INDUSTRY**

**Northern Greece branch  
in Salonica**

**Athens  
sales office**

**Headquarters and  
Industrial facilities**

## The Company

### «Anavalos» is the top Hellenic Pump Industry.

In a country of intense geological dissimilarity and uneven rainfall per region, the agricultural exploitation and urban expansion encounter a complicated reality in the attempt to pump and utilize water resources.

Handling these daily complex problems, **Anavalos** has created its characteristics establishing itself as a "diamond" in the international industry.

Nowadays it globally manufactures and exports quality irrigation, water supply and industrial use technology.

#### ■ RESEARCH AND INNOVATION

Since 1965 **Anavalos** has established original industrial pumping methods, introducing innovations in administrating water resources. Pioneering with smart technological solutions, emphasising in special necessities and constant support, enables to expand rapidly in Greece and all over the world.

Today in its laboratories it continually invests in research and development of high quality products for irrigation water supplies, industry, domestic use and fire fighting systems. It researches designs and constructs special technological solutions in water and waste disposal, enjoying the confidence of individuals, local authorities,

Electricity Authority, Water Supply and Drainage System Companies, construction companies and public works contractors.

#### ■ QUALITY

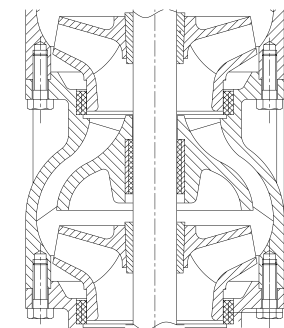

The modern Hellenic Pump Industry **Anavalos** provides products of certified quality by **ISO 9001:2000**.

Constantly improving the quality of its products and services **Anavalos** has achieved to create a long-term relationship of trust with its clients.

#### ■ TECHNICAL SUPPORT

With industrial facilities of more than 4,000m<sup>2</sup>, branches in biggest cities and a wide network of collaborators all over Greece, **Anavalos** researches, installs and continually provides solutions and works in all levels, starting from a simple agricultural construction to greater industrial works in municipalities, hydroelectric plants etc .

The extensive network of collaborators and the **24hour-support** group of engineers and technicians are with you in order to ensure the incessant and unhindered function of your installation, with advice, instructions, autopsy and spare parts.

# Submersible

- Submersible pumps  
For wells  
from 4", 5", 6", 7", 8", 10", 12"
- Capacity up to 600 m<sup>3</sup>/h
- Head up to 600 m
- Made of cast iron, bronze or stainless steel
- Vertical or horizontal installation
- Available in cooling sleeve or booster systems for horizontal installation
- Special constructions depending on demand (sea or sand water etc)

■ **SF**  
4" Pumps  
Body of pump made of stainless steel  
Impellers made of thermoplastic resin

■ **SP**  
4" Pumps  
Stainless Steel

■ **VN**  
5" Pumps  
For wells  
Stainless Steel

■ **6S**  
6" Pumps  
Body of pump made of stainless steel  
Impellers made of thermoplastic resin

■ **VS**  
6", 8" Pumps  
Stainless Steel

■ **8R-10R**  
8", 10" radial flow Pumps  
Made of cast iron  
With impellers made of bronze or thermoplastic resin

■ **6M-6N-7M-8M-10M-12M**  
6", 7", 8", 10", 12" mixed flow Pumps  
Made of cast iron  
With impellers made of bronze or cast iron or thermoplastic resin

## Vertical Turbine Pumps

- Vertical Turbine Pumps for wells from 4", 6", 7", 8", 10", 12", 14", 17"
- Capacity up to 2000 m<sup>3</sup>/h.
- Head up to 400 m.
- Cast iron deep well pumps, closed or semi-open impellers made of bronze
- Vertical or Horizontal installation of motor
- Transmission vertical, horizontal through pulley, gear-box through tractor or diesel engine
- Special constructions depending on demand (sea or sand water etc)

## ■ JB-JN-JBX

Self priming centrifugal pumps  
Made of stainless steel or cast iron

## ■ CBS

One stage centrifugal pumps made of cast iron for higher capacity

## ■ CBR-2CBR

One or two stages centrifugal pumps made of cast iron

## ■ SH-SHN

Horizontal multistage centrifugal pumps made of cast iron or stainless steel

## ■ SHI

Horizontal multistage centrifugal pumps made of stainless steel AISI316

## ■ SR

Vertical multistage centrifugal pumps made of cast iron or stainless steel

# Drainage Sewage & Wastewater

(for domestic and  
commercial use)

## ASTRA

Drainage and dewatering pumps  
Made of stainless steel or  
Cast iron or  
Plastic

■ N

■ X

■ GX

## ARGO

Sewage and  
Wastewater Pumps  
For domestic  
and commercial use  
Made of stainless steel  
or Plastic

■ NX

■ XX
